

*Does providing a YEAR of health care for a child or family speak to your heart?  
In Ghana, just \$7 for a child, \$20 for an adult or \$54 for a family will provide them with a year of health care.*

In 2010 the Twinning Committee began a pilot project to provide health care in Ghana for needy families in the Diocese of Obuasi using **Father John Agyekum's** parishes. Our intention is to fill a critical need of the people in Ghana.

Imagine providing health care coverage that includes out-patient services, in-patient services, oral health, maternity care, emergencies, etc. all for the low cost of **\$20 per adult and \$7 per dependent child PER YEAR!** We know this sounds too good to be true, however, we assure you it is true. Prior to the enactment of the National Health Insurance Act in 2003 people were asked to pay “before” a doctor saw them, and not just for emergencies but EVERY point of service. It was known as the “Cash and Carry” system. This still holds true for those not able to pay into the plan.

Today the most popular category of health insurance in Ghana, and the one that we support, is the district mutual health insurance plan/public health care. This plan is “operational” in every district in Ghana. Apart from premiums paid by members, the district receives regular funding from the central government. Every Ghanaian worker pays 2½ percent of social security contributions into the fund and a VAT, value added tax, rate in Ghana also has a 2 ½ percentage component that goes into the fund. Each resident is eligible (for coverage) under this plan regardless of prior health condition. After registering there is a two-month administrative processing period. Certainly, there is a real need for this type of insurance to become accessible to the people who are too poor to pay the insurance premiums. In the first year of our project (2010– 2011), thanks to your generosity, we were able to provide health care insurance for 473 individuals. In 2020, thanks to our parishioners and the profits of our Fair Trade sales we sponsored **90 children, 45 adults, and 185 families** for a grand total of **875!**

Because enrollment is a lengthy process, dependent in part on road conditions during the rainy season, we need to begin renewing current enrollees for 2021-2022 as well as enroll those on the waiting list. Please indicate your willingness to renew/begin sponsorship.

Make checks payable to Christ the King and note “For Health Care Project.” (\$7 per dependent child, \$20 per adult, \$54 parents and two children) *or* you may pay online at [www.olctk.org](http://www.olctk.org) and click on donate electronically via WeShare.
